

**Total Immersion
Freestyle Weekend Workshop
September 11-12, 2010**

Location: University of Missouri-Kansas City, Swinney Recreation Center, 5030 Holmes St., Kansas City, MO, 64110, 816-235-1000

Tuition: \$495.00/person or \$445.00/person if 2 or more register & pay together.

Payment type: Credit Card.

Registration: [[Click here](#)] to register

Contact: For more information please contact TI Coach **Kevin Millerick at 303-818-4283 or kevin@swimtech.net**

Description: Our most comprehensive course - TI classic 2-day weekend workshop, emphasizing core swimming drills to develop sound swimming mechanics on Saturday, with whole stroke integration and practice guidance on Sunday. Learn to swim freestyle with fluid efficiency, enabling you to swim your first mile, a faster mile, or more miles. You'll also learn to enjoy healthful swimming more than ever before.

We'll teach you the four key skills of a Fishlike Freestyle:

1. **Cooperate with Gravity** - Most swimmers fight gravity trying to stay on top of the water. We teach you to find your natural equilibrium by sinking into weightlessness. Learning to relax into the water breaks the "survival- stroking" cycle, and frees your arms and legs for their best use. Besides, gravity is a powerful natural force; doesn't it make more sense to use it than fight it?
2. **Take the Path of Least Resistance** - Once you understand that you must swim through the water -- and mindful that water is almost 800 times denser than air -- it's logical to focus more on how well you streamline than how you pull and kick. We'll teach you to shape yourself to cut through the water like a torpedo by alternating a right-side-streamline with a left-side-streamline. Each stroke will move you farther and faster with less effort.
3. **Swim with your body** - Traditional thinking about swimming treats the body as having an "arms department" that pulls you forward and a "legs department" that pushes you forward. In Fishlike Freestyle, you swim with your whole body, instead of your arms and legs. We'll teach you to propel with relaxed and rhythmic weight shifts, rather than arm-and-leg churning.
4. **Breathe easy** - We'll also teach you about breathing easily as you swim. No more breathlessness, no worries about choking. The air is free, take all you need.

SCHEDULE: Our schedule will be as follows (subject to minor revision):

Saturday

9:00 Check-in

9:15 -10:15 Orientation (in the classroom)

10:30 - 12:30 1st underwater videotaping and group instruction in the pool

12:30 - 1:30 Lunch (bag lunch recommended)

1:30-2:30 Classroom workshop and review of video #1

2:30-4:00 Group instruction in the pool

Sunday

9:15 Locker rooms available

9:30-11:00 Group instruction in the pool

11:00 - 12:00 Lunch (bag lunch recommended)

12:00-1:00 Classroom workshop

1:00 -3:00 Group instruction in the pool and 2nd underwater videotaping

3:00-4:00 Wrap-up and review of video #2 in the classroom

WHAT TO BRING:

For the classroom: Medical Release form & *Easy Freestyle Users Guide* that we send to you for download.

For the pool: An extra suit if you want dry ones for the afternoon swim, an extra pair of goggles - just in case, towel(s) water bottle and a lunch. We recommend that male students wear a Speedo-type brief or close-fitting triathlon swim shorts, rather than loose-fitting swim trunks, which can make balance even more of a challenge.
